

## FOOD SAFETY POLICY

Flexi Print (Private) Limited believes that success depend on the supply of high quality products, that meet or exceed customer and consumer expectations by ensuring the food safety of all products that the company manufactured.

Food safety is the responsibility of all the employees that have direct influence on raw materials, manufacturing, storage and the transport of the products.

We will achieve by this:

- We are fully committed to ensure a safe product to the consumer by identifying, analysis and controlling all conceivable Biological, Chemical, and Physical hazards associates with the receiving, storage, manufacturing and dispatch of finished products.
- Design, Operate and maintain processes area to meet food safety criteria.
- Establishing and maintaining standards and procedure for controlling and monitoring all the OPRP's points in the operations.
- Commit ourselves to satisfy our customers by meeting their ever-changing needs, through continual improvement of our product quality and product safety, by upgrading our technology conforming to both statutory and regulatory requirements and consistently reviewing our systems and procedures to be compatible with industry acclaimed best practices.
- Ensure that adequate qualified human resources are available and that all employees at every level and functions are aware of their responsibilities for food safety and are appropriately trained, motivated and involved.
